BUTLER is against the Federal Government and especially the Federal Bureau of Investigation (FBI) and IRS. He spoke against blacks, mexicans, and jews and stated that they had more FBI Agents in Idaho than they had members and if the FBI thought they had problems before, wait until the future.

They are having an Aryan National Congress of 1985 in Hayden Lake, Idaho, from July 17 - 21, 1985. Anyone wishing to attend should write for an application.

THOMAS LINTON METZGER, Leader of White American Resistance (WAR) was recently subpoenaed by the Federal Grand Jury in San Francisco, California, and is presently in hiding in San Francisco. BUTLER plans to meet with METZGER on Sunday, March 10, 1985, and an unknown location in San Francisco, California. He plans to return to Hayden Lake by Thursday, March 14, 1985. He wants to meet with METZGER and Colonel WILLIAM POTTER GALE, Head of the Committee of States, Mariposa, California, in the near future to resolve any problems which they may have in their common effort for white supremacy.

BUTLER talked about getting the blacks, jews, and mexicans up in arms against each other and he has set up a group in Hayden Lake to work upon this operation. He has talked to GALE METZGER and [redacted] of the Klu Klux Klan in [redacted] about this program.

THE DEATH OF THE WHITE RACE

U.S. COMMISSIONER CONFIRMS THAT WHITE PEOPLE FACE EXTINCTION.

For years Aryan Nations has been warning our White kin that there was a conspiracy to Murder our White Aryan Race and that we were fast approaching the point of no return.

Now we have confirmation from U. S. Government sources. On the back of this leaflet you will find a reproduction of an article from the August 4, 1981, Rocky Mountain News. When reading the article, please bear in mind the following things.

Considering the lower-than-replacement White birth rate, the high non-white birthrate, the colored immigration, and the fact that thousands of our young people (especially our women) desert their Race every day to marry non-whites, you can see that in ten years the child-bearing population of America will be less than ten percent White.

All history, as well as common sense, declares that no Race can survive without separation from others so they can promote, propagate, and protect their own kind.

THE ULTIMATE ABOMINATION

There are over two dozen all-Black nations engaging in no integration or the inevitable resultant miscegenation, which decrees the death of a Race. The population of one Yellow country alone, China, is nearly four times all the Whites on the Planet. They, too, are remaining racially pure. There are no all-White nations, at least in the Western world. We are the earth's most endangered species.

The famous American aviator, Charles Lindberg, travelled America in the 30's warning that if we helped to destroy the tiny nation of Germany, which was the last and only White Racial Nation, then our Race was doomed. Was he right?

Today YOU can escape the terror of the Black ghettos and the Brown barrios. Your children and your children's children will have no refuge. The DEATH OF THE WHITE RACE is neither imaginary nor far off in the distant future. History shows what "tender mercy" the few remaining Whites can expect from the colored hordes in the last days of our Race.

The JEWS, who have sworn to destroy our Race and who now own all three T.V. networks, the major movie companies, and nearly all newspapers and publishing companies, make it front page headlines, if they can find a non-integrated school or neighborhood anywhere.

Nations, economic systems, political systems, etc., will rise, fall, and evolve as long as man walks this planet. The DEATH OF THE WHITE RACE is eternal. Make no mistake, WHITEMAN, the death of our Race, the creators of Law, Justice, Technology, Medicine, Housing - virtually everything of value - spells the end of civilization.

Whiteman, look at the beautiful woman you love. Whitewoman, think about the future for your children. WHITEMAN, THINK. The decision is for this generation. Your children will be outnumbered fifty to one by colored people, who have been inflamed to hatred of our people by the JEWSMEDIA. Nature's laws are as impartial as they are harsh. Love your own kind, fight for your own kind or perish as have many thousands of other species.

YOUR FIRST LOYALTY MUST BE TO YOUR RACE
WHICH IS YOUR NATION !

Make copies of this leaflet and give them to everyone you know. Our Race is nearly out of time. For more information write to: Aryan Nations, P.O. Box 342, Hayden Lake, Idaho 83835.

Educator emphasizes schooling of minorities

By NANCY JOHNSON
Special to the News

COLORADO SPRINGS — A former U.S. education commissioner Monday warned that the nation risks obsolete schools and a generation of undereducated citizens unless it responds to an increasing population of minority students.

Ernest Boyer, education commissioner from 1977 to 1979 and current president of the Carnegie Foundation for the Advancement of Teaching, made his comments in an interview at the Antlers Hotel here.

Boyer is among 80 educators attending a weeklong meeting of the Council of Chief State School Officers, which for the first time has brought together leaders of elementary- through college-level schools from across the nation.

Hispanics and blacks "are essentially the ones with the most stake in schools now," as a large proportion of the white population grows to middle age, said Boyer.

He cited figures showing that only 28 percent of Americans 18 and younger are Anglo, while 36 percent are black and 41 percent are Hispanic. Only 39 percent of Anglo families have

children in public schools, but 61 percent of Hispanic families have children in school, he said.

The school-age racial shift sets up a potentially serious conflict, according to Boyer, because Anglos remain in the nation's decision-making positions and are the public schools' primary tax support.

Boyer told the meeting of school leaders that it is the educators who must take the initiative to change curricula to meet the needs of the changing student population.

The core curriculum must be changed to address a "human agenda rather than academic disciplines," he said. He explained that courses must escape the narrow themes of academic departments to focus on cross-cultural subjects, such as energy and social institutions.

"There is a point where the human family does meet," Boyer said. "We must stress our connectedness rather than ... specialized interests."

Schools must prepare to serve a growing number of adults as the population grows older, Boyer advised.

They also will have to conquer language barriers. "English has to be a well-established skill in the early grades," he said.

In addition, schools will have to provide greater job preparation.

Boyer said he believes schools are unable to keep pace with the growing sophistication of entry-level jobs in U.S. industries.

Schools need to take initiative to establish apprenticeships and first-level training with local businesses and industries, he said.

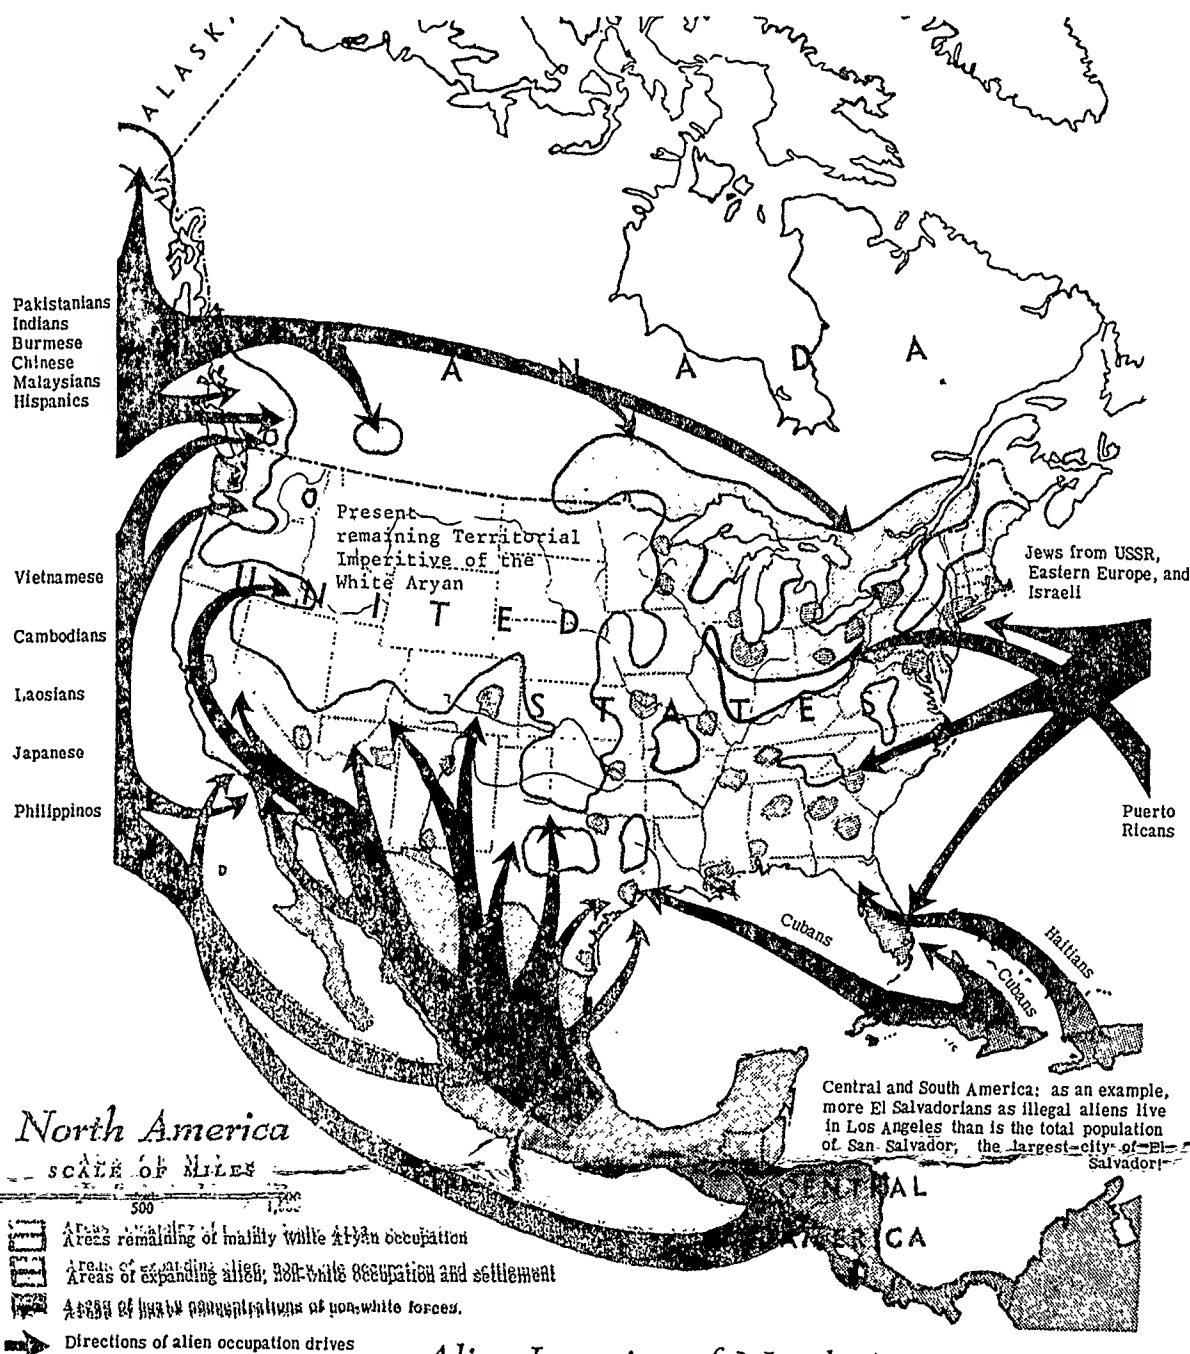

Boyer also said that, unless elementary and secondary schools provide a more relevant education for the growing minority population, colleges and universities will suffer.

The drop-out rate of minority students already threatens to close some colleges, he said. Others are facing program cutbacks. The key to their survival, Boyer said, includes not just a more relevant lower-level education, but more specialization of the colleges and universities.

"They need a clearer sense of mission," he said.

Here we have official confirmation that White Americans will soon be a small minority in what was once their land. Factor in the following facts and only the most obtuse could deny that our White Race is on the brink of extinction. (1) America is the last large group of Whites in the western world. (2) Only 5% of child bearing age people in the world are white now, and only 2% of last year's babies were white. (3) White women are deserting their race by the millions to marry among the colored races. (4) The White Nations are being deluged by colored immigrants.

There is no other issue to compare in all the ages, either we make a stand NOW or FOREVER and EVER the beauty of the Aryan woman and the civilization building, creative genius of the Aryan man is GONE!!

Alien Invasion of North America

In all the world's history never has a strong, productive, advanced Racial Nation of people, occupying a geographical territory, separated in the main by great oceans from the earth's diverse, primitive peoples, been invaded and occupied by these regressive alien hords with such impunity!

Aryan technology (Fulton's steamboat, Wright brother's airplane) plus Aryan treason made possible what was impossible for these mongrel peoples to accomplish. They, who have never dreamed of steam or jet power, land on our shores daily. Skilled Aryan captains, piloting Aryan-conceived craft, bring the alien hords to our shores in 747 luxury beyond the wildest imagination of ancient kings.

Armed Conflict

In a "manual supplement" dated January 10, 1979, for its employees, the Internal Revenue Service (IRS) declared:

Since some illegal tax-protesters advocate violence in dealing with Service personnel, Revenue Officers should attempt to secure payments and returns without personally contacting the protestor outside the office. If personal contact is necessary outside the office, the Revenue Officer should consider being accompanied by an . . . armed escort.

There you have it! The IRS admits to its own personnel that it has come to an armed conflict with the people.

The extent and the very fact of such violence was long concealed from the general public; but we have now been apprised officially of its existence.

In September, 1980, Alan Stang published an article called "Due Process" in which he told how Don McGrath was shot to death by IRS agents in North Dakota in a dispute over a bill of \$39.65.

When the shootout with Gordon Kahl occurred, such violence became national news, and even more so when he was killed in Arkansas.

At any rate, the IRS now officially admits that violence between taxpayers and IRS agents is becoming more frequent and severe. The United Press International, in a syndicated article datelined in Washington, declared that: "Tax-protestors are assaulting Internal Revenue Service agents more frequently; and in one case a contract was put out to kill an IRS employee, IRS Commis-

sioner Roscoe Egger says."

Examples are plentiful: an IRS employee was shot in Cleveland; the types of harassment range from late-night telephone calls to physical threats and actual violence. In 1982, no fewer than 512 verified incidents concerned IRS employees threatened with physical violence or actually attacked—an increase of 60 over the previous year.

Over the past seven years, 3,647 cases of threats or assaults have been investigated by the Security Division of the agency. Egger emphasized in testimony before a Senate subcommittee that while this kind of thing has been going on for years, it has, of late, increased rapidly in frequency and seriousness.

In addition to this, an increasing number of IRS employees are being sued personally for violation of civil rights. Egger demanded that in all cases—no matter what the facts might be—the government itself, i.e. the taxpayers, should be the defendants. He stated that 1,361 civil suits against employees were pending in 1983. Taxpayers and protesters have also filed a multitude of liens against real estate owned by IRS personnel.

The Coeur d'Alene (Idaho) "Press" stated in an article published May 27, 1983, that three taxpayers had filed suits totaling \$8 million against seven IRS employees and the father of one of them.

All this is a symptom of the war the federal government is waging, through the IRS, against its own people, who, driven to the extremities of desperation, are reacting as human beings have always done under intolerable stress and extortion.

I predict that the IRS is riding for a great fall; and I can tell you how its collapse could come quickly, certainly, and without even a bloody nose:

(1) Let all employees report enough allowances to eliminate withholding and then make no returns at all; and

(2) Even more decisive and strategic, let all the 25 million self-employed simply stop filing any return for a single year!

That would signal the immediate end and collapse of the IRS!
